## **New PointSecure White Paper Provides Method For Encrypted OpenVMS Backup**

*Technical Resource Outlines Two-Part Plan for Secure OpenVMS Backup and Encryption*

**HOUSTON – MARCH 22, 2011** – Today, PointSecure, a leading provider of [security and auditing solutions for OpenVMS systems](#), announced a new technical white paper for OpenVMS administrators titled “A Method for Encrypted OpenVMS Backup.” Written by Warren Kahle, OpenVMS expert and PointSecure product architect holding security certifications including CSA, CSE, Security+, and CISSP, this free resource walks administrators through steps for setting up, configuring and testing this security-focused [OpenVMS backup](#) and encryption method via a sample working site with three data centers.

“In order to meet today’s high security standards, Warren has developed this unique backup and encryption methodology that ensures private files are protected in transit,” said Windy LaMarr, Product Manager at PointSecure. “Warren’s combined 25 years in OpenVMS consulting and as an active member of various security boards like US DECUS Security Special Interest Group, InfraGard, the High Technology Crime Investigators Association, and the Information Systems Security Association South Texas Chapter, gives him unparalleled expertise in backing up and securing OpenVMS data.”

To download “A Method for Encrypted OpenVMS Backup” white paper, visit [www.pointsecure.com/encryptedbackup](http://www.pointsecure.com/encryptedbackup).

**About PointSecure**

PointSecure is the market leader in security solutions for the OpenVMS platform, helping companies protect OpenVMS systems from both external and internal security threats while ensuring compliance with security policies and governmental regulations such as HIPAA, GLBA and BS779. Our customers include some of the largest OpenVMS installations in the world. Headquartered in Houston, Texas, PointSecure was founded by veterans in the OpenVMS and security management industry to provide proven, effective security technologies to the OpenVMS community. For more information or to schedule a live demonstration of PointSecure's solutions, please visit [www.pointsecure.com](http://www.pointsecure.com).
