PointSecure Solutions Secure HP Integrity, OpenVMS Environments

Leading OpenVMS Security, Auditing Solution Provider Continues Support for HP Integrity Users

HOUSTON – JUNE 15, 2011 – PointSecure, a leading provider of [security and auditing solutions for OpenVMS systems](#), today announced their commitment to continue support for [HP Integrity](#) servers and the HP OpenVMS platform. PointSecure’s solutions protect OpenVMS systems and Integrity servers from both external and internal security threats while ensuring compliance with corporate security policies and governmental regulations such as HIPAA, GLBA and BS779.

“PointSecure has a long history of providing intrusion detection, real-time monitoring and access control for OpenVMS environments,” said Windy LaMarr, Product Manager at PointSecure. “Our continued support for HP’s high-end Integrity servers means our customers can continue to rely on our leading OpenVMS security and auditing products to protect and secure their OpenVMS systems.”

About PointSecure

PointSecure is the market leader in security solutions for the OpenVMS platform, helping companies protect OpenVMS systems from both external and internal security threats while ensuring compliance with security policies and governmental regulations such as HIPAA, GLBA and BS779. Our customers include some of the largest OpenVMS installations in the world. Headquartered in Houston, Texas, PointSecure was founded by veterans in the OpenVMS and security management industry to provide proven, effective security technologies to the OpenVMS community. For more information or to schedule a live demonstration of PointSecure’s solutions, please visit www.pointsecure.com.
